# AMAZON WEB SCRAPING PROJECT

BY VERA EMEREUWA
HAMOYE ID: 120850d9b101f000

This project was carried out to analyze data from amazon online shopping website. Data was scraped using BeautifulSoup and Requests. About 211 books were scrapped. The missing values were dropped and data cleaning was done as well.
The top priced books on amazon can be seen in the figure below.

Top priced books

Top authors were also visualised as seen in the chart below

Top Authors

There was no way to determine the books bought the most, so the review was used. The visualization is below.
